Leadership Update

MARC Workshop | 7 NOV 2019
Ken Carkhuff, Chairperson

Summary of the 2018 National Defense Strategy

“This increasingly complex security environment is defined by rapid technological change, challenges from adversaries in every operating domain, and the impact on current readiness from the longest continuous stretch of armed conflict in our Nation’s history. In this environment, there can be no complacency—we must make difficult choices and prioritize what is most important to field a lethal, resilient, and rapidly adapting Joint Force. America’s military has no preordained right to victory on the battlefield.”
